EDUCATION

Uttaranchal University
B. Tech - Computer Science
CGPA: 8.23

Dehradun, Uttarakhand
Expected Graduation, May 2025

PROFILE SUMMARY

Motivated and detail-oriented software engineering graduate with a strong foundation in computer science principles and hands-on experience in web and software development. Proficient in programming languages such as C++, Python, and JavaScript, and experienced with frameworks like React.js. Demonstrated ability to quickly learn and apply new technologies, with strong problem-solving and teamwork skills. Eager to contribute to innovative projects and develop high-quality software solutions.

WORK EXPERIENCE

Web Development Intern - *Encryptix*

18 Jul - 18 Aug, 2024

- Developed and implemented three front-end web projects, enhancing user experience and interface design.
- Leveraged modern front-end technologies such as HTML, CSS, and JavaScript to create dynamic and responsive web applications.
- Conducted thorough testing and debugging to ensure optimal performance and user satisfaction, resulting in a 20% increase in website efficiency, as measured by load time improvements and reduced bounce rates.

PROJECTS

Personal Portfolio [GitHub Link](#)

July 2024

Tools: HTML, CSS, JavaScript

Responsibilities:

- Optimized load times, integrated interactive elements, and added sections to the portfolio website, showcasing personal info, skills, projects, and contact details.
- Deployed the website to a web hosting service and maintained its performance and updates.

TextUtils [GitHub Link](#)

June 2024

Tools: React.js

Responsibilities:

- Created a versatile text manipulation utility designed to count words and characters, perform various text transformations, and facilitate easy copying of manipulated text.
- Developed the front-end using React, ensuring a responsive design that works seamlessly across desktops, tablets, and mobile devices.

CERTIFICATIONS

- Certificate from Coding Ninjas in Basics of C++, demonstrating proficiency in Introduction to C++, Variables and Data Types, Input/Output in C++.
- Certificate of TCS iON Career Edge – Young Professionals from TCS iON.
- 6-week certification course on Computer Networking & Web Development by Brillica Services.
- Crash Course on Python by Google.

ACADEMIC ACHIEVEMENTS

- Recognized for outstanding performance in organizing the event "5 Minutes to Fame" on February 22, 2023.
- Recognized as a Student Member in IEEE in good standing, demonstrating a personal and professional commitment to the advancement of technology.
- Recognized for outstanding performance in organizing "Treasure Hunt 2.0" on April 13, 2022, with 150+ participants and complex challenges, showcasing strong organizational and leadership skills.

SKILLS

Programming: C, C++, Core Java, Python, HTML, CSS, JavaScript, DBMS, MySQL, React.js

Tools: PyCharm, Git, GitHub, Bootstrap, Visual Studio Code

Soft Skills: Interpersonal Communication, Problem Solving, Quick Learning Ability, Teamwork, Adaptability
